# **INSTRUCTIONS TO APPLICANTS**

## **2. INSTRUCTIONS TO APPLICANTS**

- 2.1 Applicants are encouraged to inform themselves fully about the assignment and the local conditions before submitting the Proposal.
- 2.2 Broad description of the objectives, scope of services, Deliverables, and other requirements relating to this Consultancy are specified in this RFP. In case an applicant firm possesses the requisite experience and capabilities required for undertaking the Consultancy, it is invited to participate in the Selection Process individually (the "Sole Firm") and no consortium is allowed.
- 2.3 Proposals shall be prepared and submitted in the manner elaborated in this RFP as per the formats/annexures provided.
- 2.4 No Applicant or its Associate shall submit more than one Application for the Consultancy.
- 2.5 Any entity which has been barred by any agency of the Central Government, any State Government, any Statutory Authority or any public sector undertaking, as the case may be, from participating in any project, and the bar subsists as on the date of the Proposal, would not be eligible to submit a Proposal either by itself or through its Associate.
- 2.6 TSIIC reserves the right to terminate a firm's participation in the tender process at any time, should TSIIC consider that a firm has, without the prior consent, failed to comply with any of the procedures and requirements prescribed in the RFP.
- 2.7 It shall be deemed that by submitting the Proposal, the Applicant has:
  - a. made a complete and careful examination of the RFP;
  - b. received all relevant information requested from TSIIC;
  - c. accepted the risk of inadequacy, error or mistake in the information provided in the RFP or furnished by or on behalf of TSIIC or relating to any of the matters referred in the RFP;
  - d. satisfied itself about all matters, things and information, including matters referred herein, necessary and required for submitting an informed Application and performance of all of its obligations there under;
  - e. acknowledged that it does not have a Conflict of Interest; and
  - f. Agreed to be bound by the undertaking provided by it under and in terms hereof.
- 2.8 TSIIC shall not be liable for any omission, mistake or error in respect of any of the above or on account of any matter or thing arising out of or concerning or relating to RFP or the Selection Process, including any error or mistake therein or in any information or data given by TSIIC.
- 2.9 The Proposal of a firm shall be liable for disqualification in the event of the following:
  - a. If the firm refuses to accept the correction of errors in its proposal, (or)
  - b. If the Firm submits a conditional Proposal which would affect unfairly the competitive provision of other firms who submitted substantially responsive proposal and/or is not accepted by TSIIC.

## **2.10 QUERIES AND CLARIFICATIONS**

The applicants are requested to study this entire tender document in detail. If the applicants have any queries on the RFP or on the proposed project, they may submit such queries to TSIIC in writing on or before the date specified in the “**Data Sheet**”. Clarifications for all such queries received within the date specified would be provided by TSIIC at least three working days before the due date and time of tender submission date. All such queries received and TSIIC clarifications shall be uploaded only on TSIIC website without identifying the names of the firms.

## **2.11 AMENDMENT TO RFP**

- a. At any time prior to the due date for submission of Proposal, TSIIC may, for any reason, whether at its own initiative or otherwise, modify the RFP document by issuing Addendum/ Amendment.
- b. In order to provide the Applicants with reasonable time for taking an amendment into account, or for any other reason, TSIIC may, in its sole discretion, extend the PDD.
- c. The above changes & amendments, if any, will be notified only on TSIIC website.

## **2.12 CONFLICT OF INTEREST**

- f. The technical proposals will be marked based on the following evaluation criteria.
- i. **Approach & Methodology:** Marks shall be awarded based on the understanding of the Mass Rapid Transit System, firms' specific experience, quality of approach and methodology proposed by the Applicant. Max marks for Approach & Methodology is Twenty Five (25) marks.
- ii. **Project Experience of the Applicant:** With reference to relevant experience of the Firm, marking will commensurate with experience in number of Projects as below.
- Each project experience in this category for which Project Consultancy services activities are completed and supported by documentary proof of completion of services will carry Ten (10) marks per each eligible project, subject to a maximum of thirty (30) marks.
- iii. **Team Composition:** The team composition (key experts) mentioned in Terms of Reference (TOR) of this RFP will only be considered for marking under clause (4.7, e-iii) above. The team leader and proposed team members of the Consultant shall be available in Hyderabad during the entire project duration for regular deliverables based on tasks, project coordination, attending meetings etc.
- a. **Team Leader:** A total of fifteen (15) marks are allocated to Team Leader. Five (05) marks will be awarded for each relevant project experience, subject to a maximum of fifteen (15) marks.
- b. **Other Key Technical Professionals:** A total of maximum thirty (40) marks are allocated to the other Key Technical Professionals (other than Team Leader) as per experience stipulated in section 5.5 of TOR. For each key technical personnel, a maximum of 5 marks will be awarded.

#### **4.8 OPENING AND EVALUATION OF ENVELOPE II (FINANCIAL PROPOSAL)**

- a. The Envelope II of those Firms that scored a minimum of Seventy-Five (75) marks in the Technical Proposal (Envelope I) will only be opened.
- b. The price proposals shall be checked for substantial compliance. If the submission is in substantial compliance with the Price Proposal, then, the review and evaluation of the same would be undertaken. If the submission does not satisfy the criteria, the submission will be rejected and such firm will be eliminated from further evaluation process.
- c. Requirements for Substantial Compliance: Prior to the detailed evaluation of the

Price Proposal, it would be determined whether each Price Proposal:

- i. Has been properly signed and contains the required representations or commitments;
  - ii. Is presented in a manner that conforms with the requirements of the RFP including the specified format.
- d. Material Deviation: A material deviation or reservation is one
- i. Which affects in any substantial way the requirements of the RFP and performance of the Project; or
  - ii. Which is substantially inconsistent with the requirements of the RFP;
  - iii. Whose rectification would affect unfairly the competitive provision of other competing firms presenting substantially responsive proposals.
- e. Evaluation: The financial proposal that has the lowest quote (L1) among all the financial proposals opened shall be given one hundred (100) marks. The remaining price quotes (L2, L3, L4, etc.) will be marked in reference to L1. For Example, if L1's quote is Rs 'X' lakhs and L2 quote is Rs 'Y' lakhs, then  $L1 = 100$  marks and  $L2 = X/Y * 100$  marks).

#### **4.9 COMBINED EVALUATION OF TECHNICAL AND FINANCIAL PROPOSALS UNDER QCBS**

This is the final stage of proposal evaluation. As per the predefined QCBS evaluation criteria, 80% weightage will be given to technical score and 20% to the financial score. Accordingly, 80% of the technical marks and 20% of the financial marks will be combined/ summed up to arrive at the final marking. For example, if the technical score of a particular firm is 80 marks and financial score is 90 marks, then the combined technical and financial score in the ratio of 80:20 will be as computed below.

- 80 percent of technical score =  $0.8 * 80 = 64$  marks
  - 20 percent of financial score =  $0.2 * 90 = 18$  marks
  - **Total combined score = 82 marks**
- 

#### **4.10 CRITERIA FOR SELECTION OF CONSULTANT**

The sole criterion for selection of the Consultant is the highest combined technical and financial scores in the ratio of 80:20 respectively (80% technical score and 20% financial score). In the event of more than one firm score the same highest marks, TSIIC may call those firms (limited to only such firms) for negotiation/ resubmission of the financial proposal. In such a case, firm that offers the lowest price quote will be the selected Consultant.

# **TERMS OF REFERENCE**

## **5. TERMS OF REFERENCE**

### **5.1 BACKGROUND**

The Hyderabad Metropolitan Area (HMA) is one of the fastest growing metropolises in India. Given the growth dynamics and dimensions of transportation problems, and more importantly to plan and develop transportation systems on a sustainable basis with an updated long-term perspective, HMDA, with assistance of the MoUD have completed the Comprehensive Transportation Study (CTS) for HMA in 2014. This study has provided insight into the current challenges of commuting within the Hyderabad city as well as travels to other parts of HMA, addressed the issues and prepared an infrastructure and investment plan for the next few decades. CTS recommended a planned development of transport system in HMA up to 2041. This included short-term (2011-2021), medium-term (2022-2031) and long-term (2032-2041) prioritized projects for investments.

Rapid industrialization and intense commercial development in the past decades have resulted in steep rise in travel demand, putting Hyderabad Area transport infrastructure to stress. Hyderabad's growth is expected to continue at a faster pace, boosted by various policies and programs of the Government of Telangana. With the projected increase in the city's population/growth, strengthening and augmenting the existing transport infrastructure is the need to trigger the growth in GHMC and the rest of HMA by evolving the transport system to provide the much needed connectivity.

Vehicular population of cars is increasing at 18% CAGR and Two Wheeler by 12.5% CAGR and the overall private vehicle growth has been increased from 228/ 1000 population in 2011 to 364/1000 population in 2016.

The feeder bus services to the existing/ proposed MMTS phase II stations and proposed metro stations shall have limitation in future in handling the travel demand due to less capacity and more traffic congestion on the road system. The alternative technology for handling the relatively higher demands compared to road-based public transport and relieving the traffic congestion on the road system is contemplated with the introduction of Mass Rapid Transport System (MRTS).

GHMC has successfully initiated the Sustainable Road Development Plan (SRDP) for traffic Improvement to ease the traffic congestion in central area of HITEC City. However these will be temporary measures to relieve the traffic congestions. Government of Telangana (GoT) stresses the need for continuing efforts and expanding on its commitment recognizing the varying needs and priorities of different transportation users, in developing HITEC City's major transportation infrastructure.

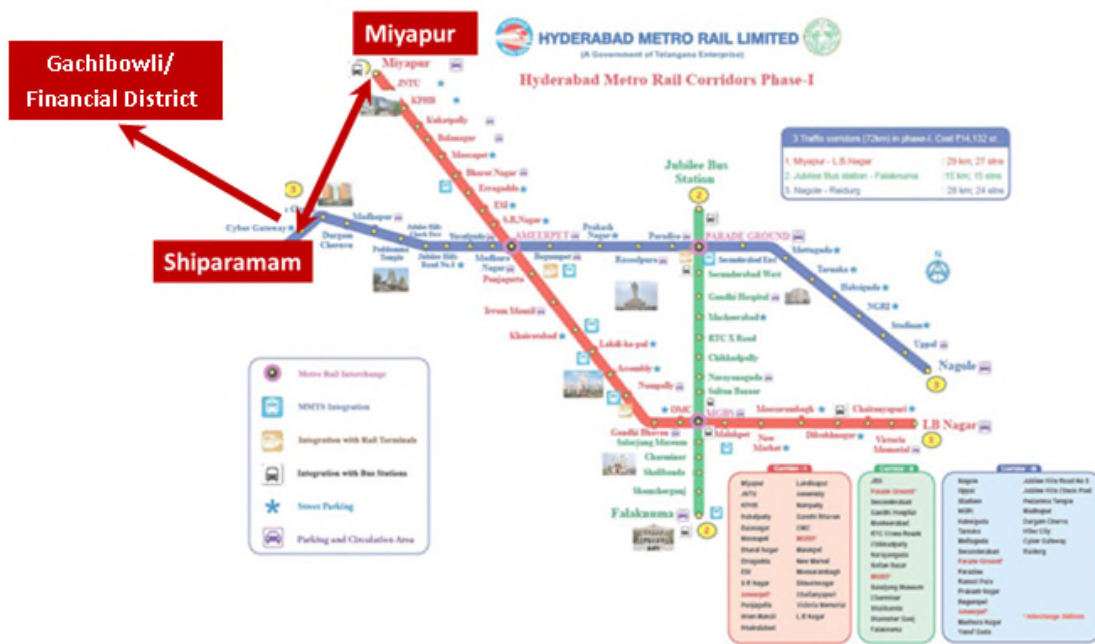

**RFP for Selection of Project Consultant for Proposed MRTS Corridor from Miyapur to Shilparamam and Gachibowli, Hyderabad**

Government of Telangana desires to speed up the pace of implementation efforts. However, there are a number of projects which need to be implemented. The planned/ongoing developments and planned metro corridors will have an effect on the proposed traffic & transport infrastructure within Cyberabad and surrounding area.

In this regard, GoT, through TSIIC, has envisaged development of Mass Rapid Transport System (MRTS) in Hyderabad Metropolitan Area (HMA). Towards this, the TSIIC invites bids for “Consultancy Services of Feasibility Study for Proposed MRTS Corridor from Miyapur to Shilparamam and Gachibowli, Hyderabad”.

**Miyapur to Shilparamam and Gachibowli Corridor**

Miyapur is the terminal for “Miyapur- L.B. Nagar” Metro Corridor, and crosses the MMTS line between Hafeezpet and Hitech City Stations, and further towards the south connecting HITEX Exhibition Centre and HITEC City, and ends at Shilparamam.

The Hyderabad Information Technology and Engineering Consultancy (HITEC) City is an Information Technology, Engineering, Health Informatics, and Bioinformatics campus located in Hyderabad, India. HITEC City is located about 14 km from the Central Business District (CBD) of Greater Hyderabad. HITEC City is spread across 151 acres (61 ha) of land under the suburbs of Madhapur, Gachibowli, Kondapur, Manikonda, and Nanakramguda. The technology township is

also known as Cyberabad, and is within two kilometers of the residential and commercial suburb of Jubilee Hills.

The project was initiated by TSIIC with participation of private infrastructure companies like L&T, Raheja corporation, Ascendas IT Park, Vanenburg Corporation, Peepul Capital (successor to iLabs Venture Capital Fund), SP, RMZ corporation, Divyasree infrastructure, Lanco Hills technology park, DLF, Emaar MGF and others. The area comprises IT parks such as L&T Infocity, Hitech City2 SEZ, Vanenburg IT Park or The V, Mindspace Cyberabad SEZ, DLF IT SEZ, Tech Mahindra IT SEZ, TCS Synergy park IT SEZ, SEZs of Infosys, Wipro and APIIC, built to suit campuses of several major technology companies.

## **5.2 Objectives**

To undertake alternatives analysis as to demonstrate the techno-economic and financial viability of the MRTS corridor from Miyapur to Shilparamam and Gachibowli to satisfy the future travel demand, and to ensure that this is well integrated with other transport networks/ terminals and land use.

1. Assessment of Technical Feasibility of the corridor;
2. Assessment of Ridership for feasible MRTS corridor; and
3. To assemble the baseline data required and to prepare preliminary designs, so as to analyse the financial feasibility based on which the implementation mechanism can be suggested.

## **5.3 Detailed Scope of Work**

The above objectives have been translated in to the following five main tasks in two phases:

### **Phase I:**

**Task 1:** Analysis of the various alternative alignments of the MRTS Corridor from Miyapur to Shilparamam and Shilparamam to Gachibowli;

**Task 2:** Assessment of preliminary ridership for preferred alternative by undertaking a transport modelling work for 2021, 2031 and 2041 horizon years; and

**Task 3:** Undertake preliminary concept designs along with block-level costing adequate for inviting bids;

### **Phase II:**

**Task 4:** Undertake economic and financial viability analysis of preferred alternative in consultation with TSIIC adopting suitable financial model; and

**Task 5:** Suggest the project implementation mechanism/ project structure and procurement assistance including preparation of RFP document, Development Agreement and Bid process management

Detailed description of the above tasks is as follows:

**Task 1: Analysing the various alternatives of MRTS Corridor from Miyapur to Shilparamam and Gachibowli**

The consultants shall familiarize themselves with

- The existing/ongoing/ proposed major road network of HMA establishing sub-regional connectivity as set out in CTS.
- The existing/ongoing/ proposed MMTS and metro networks for HMA establishing sub-regional connectivity as set out in CTS.
- The policy, planning and transport network developmental endeavors of the key stakeholders including TSIIC, HMDA, GHMC, South Central Railway, TSRTC, TSRDC, etc.
- The MRTS connectivity from Miyapur to Shilparamam and Gachibowli that is the subject of this study and in particular the main characteristics of the various sections.
- The current proposals for and status of the land use plans for HMA.

**Define Objectives:** Review the general alignment proposed by CTS for the MRTS connectivity from Miyapur to Shilparamam and Gachibowli, by section. For the whole corridor and each section, define the transport and urban development objectives of the CTS proposals, and the Study Area within which the corridor proposals should be located.

**Existing Development:** For each section within the existing built up area; map the locations where adjustment to the alignment is required to reduce the impact on existing or proposed development, or to improve the road or public transport network connectivity, or the connectivity between land uses.

**Proposed Development:** For each section, map the proposed Right of Way (RoW) in the area from the current revision of the Master Plan. In order to integrate land use and transport, and reduce motorized travel demands, consider whether adjustments are necessary to the alignment or whether separate (but roughly parallel alignments) would be more appropriate.

**Design Optimization:** In order to avoid or minimize resettlement, the consultants are to adopt the approach of the World Bank involuntary resettlement policy which states that “*Involuntary resettlement should be avoided where feasible, or minimized, exploring all viable alternative project designs*”. This will usually require a few iterations.

**Physical Footprint and Social Footprint:** “*Avoid or minimize*” resettlement does not necessarily or only mean minimizing the numbers of affected people at any price. The consultant must minimize or avoid resettlement and social impacts in a broader sense. Hence the need to consider both the “physical footprint” (including any buffer or safety zones that environmental or health & safety regulations may require), and a broader “social footprint”.

Review the connections of the proposed road and transit facilities in the multi-modal connectivity from Miyapur to Shilparamam and Gachibowli. Carry out a rigorous evaluation of alternative alignments including identification of intermediate stations. Select an alternative based on the findings of the analysis with a particular focus on:

- (i) Maximizing the travel demand
- (ii) Minimizing overall development costs;
- (iii) Minimizing and mitigating environmental impact;
- (iv) Minimizing and mitigating resettlement impacts; and
- (v) Providing for transport-guided development.

The consultant will be expected to undertake a more in-depth consideration of the corridors proposed for public transport links, and an Alternatives Analysis of the ways to provide these links in the corridor, with a view to finding the best integrated transport and land use solutions. The alternative alignments shall then be evaluated, and a preferred alternative shall be used for further tasks.

**Task 2: Assessment of Preliminary Ridership for Preferred Alternative by undertaking Transport Modelling work for 2021, 2031 and 2041 Horizon Years**

For each section consultant is expected to review the existing traffic levels (where applicable) and the demand forecasts by mode and horizon year to obtain an understanding of growth in demand and the associated requirements for Public Transport (PT) modes (bus, Metro, MMTS) and for type (arterial, sub-arterial) and size (numbers of lanes) of highway facilities.

The consultant is expected to assess the traffic levels on road and ridership on transit corridor by taking the planning parameters and transport network details available from CTS for HMA study.

The consultant is to make the required adjustments to the coding of the road and public transport networks in the corridor and undertake the assignments required to assess the impact on traffic flows of the alternative alignments. The results of the assignments would also be used in carrying out the economic and financial analysis of the preferred alternative.

Network scenarios with-MRTS system and without-MRTS system will be created and analysed for evaluating the effectiveness of MRTS in reducing the traffic congestion on the road system and to assess the benefits. Ridership, boarding and alighting, etc. for the preferred alternative which is identified for carrying out detailed analysis shall be assessed for the horizons year 2021, 2031 and 2041 in the context of overall proposed transport network for the respective horizon years. Recommendation of appropriate MRTS technology option based on various criteria shall be made.

**Task 3: Undertake Preliminary Conceptual Designs along with Block-Level Costing**

Using the alignment plan, the preliminary conceptual design of all the project components of the corridor shall be undertaken along with block-cost estimates with adequate details for preparation of procurement documents. The cost estimate will be developed using current costs for similar projects, which will include the assumptions and basis of such estimates.

The project cost thereafter will be benchmarked with cost of similar projects in the country.

**Task 4: Undertake economic and financial viability analysis of preferred alternative**

The Consultant is to prepare initial estimates of the capital, operating and maintenance costs of for the MRTS infrastructure. The viability analyses should use the travel demand model outputs (e.g. traffic volumes and speeds by mode, vehicle type and traffic direction; and travel time, distance, and out-of-pocket costs for person trips and vehicle trips between any O-D pair) as inputs for economic evaluation. It should allow the economic feasibility to be expressed in terms of expected Net Present Value (NPV) and Economic Internal Rate of Return (EIRR).

**Financial Viability**

One of the primary objectives of public transport pricing is to generate revenues that can ensure an efficient and adequate supply of public transport services. The consultant is to prepare a financial analysis of the preferred corridor on an annual and life cycle basis. The values of the input parameters, assumptions and calibration methodologies for financial analysis shall be clearly stated and approved by TSIIC. The consultant shall suggest positive ways of enhancing the project viability and furnish financial models for implementation.

**Task 5: Suggest the project implementation mechanism and procurement assistance**

Based on the initial financial analysis for the preferred alignment, identify the possible funding and implementation arrangements for the MRTS project.

Based on the financial analysis and project viability, the implementation mechanism of the selected corridor, for which the analysis to be undertaken, need to be suggested. Private funding based on a PPP implementation format is to be explored (with or without VGF), failing which government funding is to be explored.

The consultants shall prepare the procurement documents and assist TSIIC with the procurement process for the selected implementation mechanism

**Primary Surveys**

The following primary surveys shall be carried out as part of the feasibility study:

**RFP for Selection of Project Consultant for Proposed MRTS Corridor from Miyapur to Shilparamam and Gachibowli, Hyderabad**

- 24 Hour Classified Traffic Volume Count (minimum 4 locations)
- Origin – Destination (OD) Surveys (minimum 4 locations)
- Turning Movement Surveys (minimum 6 locations)
- Pedestrian Volume Counts (minimum 6 locations)
- In-Bus Commuter Surveys (minimum 20 buses)
- Topographic Survey for 100m on either side of the selected alignment
- Land Use Survey for 500m on either side of the selected alignment

**5.4. DELIVERABLES, TIME-LINES AND PAYMENT SCHEDULE**

The consultancy services shall be carried out in two phases, as follows:

*Phase I: Technical Feasibility Stage (5 months)*

*Phase II: Financial Feasibility & Procurement Assistance Stage (3 months from receipt of NTP)*

Phase II shall be commenced after receiving a Notice-To-Proceed (NTP) from TSIIC.

**12. Entire Agreement**

This Agreement constitutes a complete and exclusive statement of the terms of the agreement between the Parties on the subject hereof, and no amendment or modification hereto shall be valid and effective unless such modification or amendment is agreed to in writing by the Parties and duly executed by persons especially empowered in this behalf by the respective Parties. All prior written or oral understandings, offers or other communications of every kind pertaining to this Agreement stand hereby abrogated and withdrawn.

**13. Modification /Amendment of Agreement**

Any modification / amendment of the terms and conditions of this Agreement, including any modification of the scope of the services, may only be made, and be effective, through written agreement between the Parties. However, each Party shall give due consideration to any proposals for modification / amendment made by the other Party.

**14. Fairness & Good Faith**

**a) Good Faith**

The Parties undertake to act in good faith with respect to each other’s rights under this Agreement and to adopt all reasonable measures to ensure the realization of the objectives of this Agreement.

**b) Operation of the Agreement**

The Parties recognize that it is impractical in this Agreement to provide for every contingency which may arise during the life of the Agreement, and the Parties hereby agree that it is their intention that this Agreement shall operate fairly as between them, and without detriment to the interest of either of them, and that, if during the term of this Agreement either Party believes that this Agreement is operating unfairly, the Parties will use their best efforts to agree on such action as may be necessary to remove the cause or causes of such unfairness, but no failure to agree on any action pursuant to this Clause shall give rise to a Dispute (as hereinafter defined) and would be consequently dealt subject

to arbitration in accordance with Clause 15 hereto.

#### **15. Settlement of Disputes**

- 15.1 Any and all disputes or differences between the Parties hereto arising out of or in connection with this Agreement or its performance (hereafter a “**Dispute**”) shall, so far as it is possible, be settled amicably through good faith discussions between the senior executives of the Parties with authority to resolve the dispute or issue between them.
- 15.2 In the event the Dispute remains unresolved after thirty (30) Business Days of such amicable resolution, referred to under sub-clause 15.1 above, and the Parties have failed to reach an amicable settlement with respect to the same, the Dispute shall be submitted to arbitration at the request of either Party upon a written notice (hereinafter referred to as the “**Dispute Notice**”) to that effect to the other Party and such arbitration shall be conducted in accordance with the provisions of the Indian Arbitration and Conciliation Act, 1996 by a panel consisting of one (1) arbitrator, who shall be appointed jointly by Parties. In the event the Parties are not able to reach a consensus as to the appointment of the sole arbitrator within 30 days of the date of request of either Party for appointment of the sole arbitrator, ‘TSIIC’ shall appoint one arbitrator and THE CONSULTANT shall appoint the second arbitrator, and the two appointed arbitrators (hereinafter referred to as the “**Nominee Arbitrators**”) shall nominate the third arbitrator (hereinafter referred to as the “**Presiding Arbitrator**”) who shall preside over the arbitral tribunal as the Chairman.
- 15.3 The language of the arbitration shall exclusively be English. The venue of the arbitration shall be Hyderabad only.
- 15.4 Both Parties agree that the award of the arbitrators shall be final and binding upon them, and that none of them shall be entitled to commence or maintain any action in a court of law upon any matter in dispute arising from or in relation to this Agreement, except for the enforcement of an arbitral award granted pursuant to this Clause to the extent permitted under Applicable Law.
- 15.5 During the period of submission of Dispute to arbitration and thereafter until the granting of the award, both Parties shall, except in the event of termination, continue to perform all their obligations under this Agreement without prejudice to a final adjustment in accordance with such award.
- 15.6 Neither Party to arbitration nor the members of the arbitration panel may disclose the existence, content, or results of any arbitration hereunder without the prior written consent of the other Party.
- 15.7 Each Party shall initially bear their respective share of expenses to be incurred on the arbitration proceedings and subsequently the expenses incurred on the arbitration proceedings would be shared as per and in terms of the final award passed by the arbitrators within the jurisdiction of court of the Hyderabad.

15.8 The provisions contained in this Article shall survive the termination and/or expiration of this Agreement.

**IN WITNESS WHEREOF**, the Parties hereto have caused this Agreement to be signed in their respective names as of the day and year first above written.
