

Notice No. 001/TSIIC/HPC/EOI/2022-23

“Corrigendum – IV”

S. No	RFP Reference and Clause	Query	Response / Reply
1.	<p>Clause 1.2.3 and 2.1.1</p> <p>1.2.3 The Authority intends to develop DHS (the “Project”), preferably on PPP format having the following broad components:</p> <ul style="list-style-type: none">• RSG steam output rating: 600 TPH (3 x 200 TPH)• Primary GTG Fuel: Natural Gas• Associated co-generation facility: 210 MW (3 x 70 MW)... <p>2.1.1 Telangana State Industrial Infrastructure Corporation Limited (the “Authority”) is engaged in developing and providing industrial infrastructure in Telangana. As part of this endeavor, the Authority has decided to develop a District Heating System with a capacity of (600 TPH – 3 x 200 TPH), associated Gas Turbine Generator (Co-generation) with 210 MW capacity (3 x 70 MW) and all other associated components</p>	<p>We would request you to keep the size/configuration of the GTG open and to be left on the developers so that they can choose the most efficient GTG models based on the life cycle cost analysis of the cogeneration project satisfying the overall power/steam requirement of the DHS complex.</p>	<p>The overall requirement of the Project is defined in the EOI. however, the modularity, selection of appropriate technology, configuration and size etc. are indicative in nature and may be firmed up by the Bidder keeping the overall requirement of the Project.</p> <p>Further, the technical details are to be firmed up at RFP (Bid) stage.</p>
